## Catalogue 2006-7

### **New Product: The IMP**

*This new impact release clip cleverly puts the impact release inside the clip that holds the sinker. Improving distance and simplifying design.*

*Sold five to a packet.*

These pictures shows how the clip works. We have used a large Circle hook rig with a loop system for big baits. The loop system is far better for big baits as this will lock the loop into the clip during the cast allowing for better bait presentation whilst fishing.

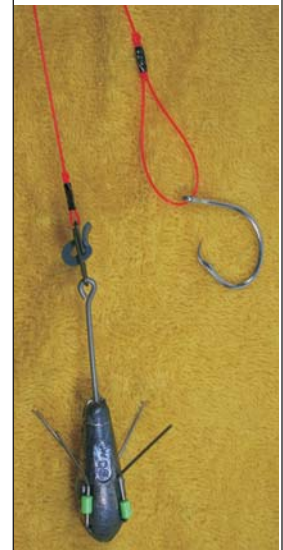

The clip can be used for Snelled or Tied hooks attached to the hook or loop. The benefit of using the IMP is that it puts the baited hook closer to the sinker improving aerodynamics yet providing a fail safe mechanical release.

For Rig makers it has made life really easy, improving design of the clip down rig and eliminating components required.

*Cast Position*

*On Impact with water the Imp will release baited hook.*

**Davis Crimp DC1**  
 This crimp is the rig builders dream. A fully adjustable crimp that allows firm hold or easy slide. Built on the No 5 Black Crimp.

**The Slideaway by Breakaway** is a great way to place live bait at extreme distance. You cast the sinker first then attach the Slideaway with live bait to the pre-cast line. The unique design of the Slideaway only allows the bait to go out. If it tries to swim back the design of the Slideaway prevents it. Great for live baits from the shore or bank. These have caught many large fish.

**The Slideaway Sa60**  
 3 per pack.

### Conversion on sinker weights

- SL/LT 90grm =3oz
- SL/LT 110grm =4oz
- SL/LT 130grm =4.5oz
- SL/LT 150grm =5.3oz
- SL/LT 170grm =6oz
- SL/LT 190grm =7oz
- SL/LT 210grm =7.5oz

The long tail will hold better and takes Lead Lift.  
The short tail will cast slightly further.

Unbreakable beads.  
Adjustable tension wires.  
Aerodynamically shaped  
for longer distance.

*On retrieval the wires rotate. Less hang ups.*

**BREAKAWAY SINKERS HOLD BETTER AND ALLOW YOU TO FISH LIGHTER**

BIL Sinkers

### Breakaway Impact Sinkers

You take a great sinker and then you put an impact shield in it. This is evolution. Just watch this bad boy fly and hold. With stainless steel retractable wires or without.

Sizes available

- BIL 125 gram = 4.46oz
- BIL 150 gram = 5.35oz
- BIL/PL 170 gram = 6.07oz
- BIL/PL 200 gram = 7.14oz

BA7

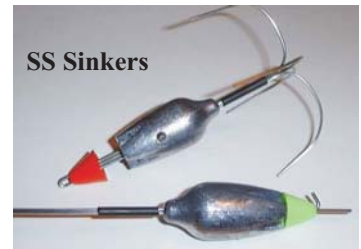

### Breakaway Lead Adapter Ba7

Imagine this! Increase your holding power by 40% with no increase in weight. Fits most sinkers. "What a product." Its featherweight that holds like a heavyweight champ All plastic, stainless steel wires and unbreakable beads.

### New Softy Sinker

The New Breakaway Softy Sinker is designed to hold large baits in strong tides. This sinker will stay where the fish are. The holding wires are soft and will bend allowing the lead to be easily retrieved. Same Great Aerodynamic shape and built in Impact Shield.

- SS170 170 gram = 6.07oz
- SS200 200 gram = 7.14oz

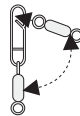

SS Sinkers

### Breakaway Fastlinks & Spinlinks

Features: Change sinkers, lures or rigs in a second. No Knots. Stainless Steel, No Moving Parts, The Terminal ends of wire are within the link. Weedless operation. Great for anyone who has problems opening normal clips. 10 Links per pack

- FL 1 FastLink 80#
- SL 2 Spinlink 60#

*The only thing that can't open this link is a fish.*

### Twin Links

Twin Links for quick attachment of rigs and sinkers. A proven and safe link to use. Neat, quick stainless steel clips.

TL 1

### Breakaway Quick Fix Booms

Just wrap the line 3 times around the open end of the clip, close the plastic slider and you have a non slip stand off boom in seconds. Quickly attach your snoods, no knots or line damage.

Quick Fix Boom QF 1

### Impact Shields

You know how good they are. They protect your bait and increase your distance. The only clip down that protects your bait on impact. Build your own clip down rigs.

Package of 4 w/Shrink Tube IS1

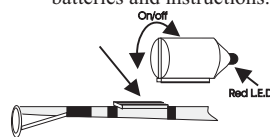

### Breakaway Lead Lift

"Don't hang up, hook up." NL1  
2 Lead Lifts and 2 stainless steel clips and bars per pack. The Lead Lift will fit any sinker with an eye. Vastly reduces terminal tackle loss and line wear. The Lead Lift will lift any sinker to the surface to reduce risk of snagging and speed retrieval.  
**A must for any tackle box!**

### OLD RED EYE NOW ALSO IN BLUE AND GREEN

Comes with rod mount, batteries and instructions.

Replaceable batteries. A lifetime of use. Leave on rod during cast.

- RTL1 = RED
- RTLB = BLUE
- RTLG = GREEN

# Rigs

There are four different styles of our clip down rigs. All our rigs are designed so they will set the hook automatically at long distances.

Any rig with PRIG in the product code is a Pulley Rig. The leader to the sinker feeds through the eye of the swivel that attaches to the main fishing line. This rig allows considerable movement before the fish will feel the hook set.

Attach Sinker To Clip  
Place baited hook on impact shield in front of leader  
Attach to Main Fishing Line

Attach to main fishing line  
Place hook on clip  
Attach sinker to clip  
Place baited hook on IMP release clip

**New**  
Now has adjustable crimp so rig fits all hook sizes.

Any rig with LRFF in the product code is a Long Range Fish Finder. The fish finder element is: The trap bead for the hook leader is placed lower on the sinker leader to allow movement when the fish takes the bait.

Any rig with FOR in the product code is a Far Out Rig. The rig has a trapped hook leader. This is a better design for bottom feeding fish. The rig keeps the bait nearer the bottom.

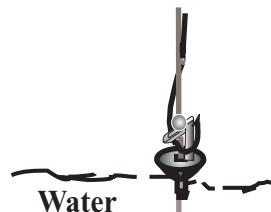

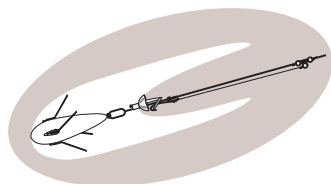

Attach to main fishing line  
Place hook on clip  
Attach sinker to clip  
Place baited hook on IMP release clip

Breakaway offers several NEW Double Drop Rigs (Any Rig with DC in the product code) for specialized applications. These new rigs provide double clip down using a lower Impact Shield and center Cascade Clip. Adjustable Davis Crimps are provided so you can clip down the hook or the hook loop. You get that famous Breakaway Long Distance Cast in a double drop rig!

Attach to Main Fishing Line  
Davis Crimp  
Attach Baited Upper Hook or Hook Loop To Cascade Clip  
Cascade Clip  
Impact Shield  
Attach Baited Lower Hook or Hoop Loop To Impact Shield  
Attach Sinker To Clip

Aerodynamic Shielding Means Less Drag Greater Distance!

On impact with water shield will protect and then release baited hook

Breakaway Copolymer line is low diameter and has high resistance to abrasion. The fisherman can now fish with the same amount of line on his spool using 20lb as he had 12lb. The line guard and UV protector will make this line a winner. The guards come on all 1/4lb spools. The guard will prevent line wastage on partly used spools. The casting ability of this line is the best. Compare our diameters.

### 1/4 lb Spools

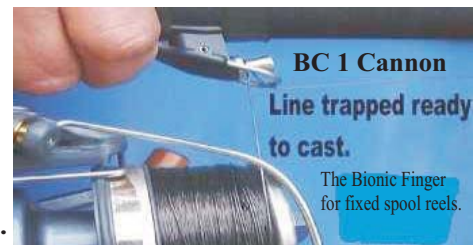

P. Code#	Line	Yds
LDC10	Long Distance Line Clear .23mm (0.0091)	2600
LDC14	Long Distance Line Clear .28mm (0.0110)	1760

LDG50	Long Distance Line Green .23mm (0.0091)	450

### The Breakaway Cannon is an instant success.

We launched this great new product on our web site.

It has become an instant success.

This casting aid for the fisherman using a spinning reel is the quickest way for someone to improve his or her accuracy and distance. Totally eliminates damage to the index finger during the cast. Just tape the cannon to the butt of the rod; in a comfortable position above or behind the spool rim, allowing space for the bale arm to rotate.

The Breakaway Boat Pier Rest is a great way to protect your rod against impact damage. Just stretch the rubber and lock it in place. Great for piers, boat rails, etc. By using two of these on a vehicle roof rack you have a great way to transport your rods to and from your favorite fishing hole.

Boat Pier Rest **BP1**

Breakaway Coasters are the most versatile on the market and have so many uses that I would not leave home without them. The picture shows how they attach the reel to the rod. One size fits all rods.

Black Coaster Clips **NC1**

### Ceramic Bearings and Reel Mag Conversion Kits

Breakaway USA carries the NEW ceramic replacement bearings for most popular conventional reels. Ceramic bearings last longer and cast further than standard steel bearings. Just ask for the size you require when ordering.

4\*10\*4  
3\*10\*4  
4\*9\*4

This is it. If you want to get championship performance then this is the quickest way to do it Clean your bearings with a degreaser, let the bearing dry and apply one or two drops only. The performance difference is instantly noticed. Whether bass fishing, tournament casting or fish for the big boys in the surf. A performance tuned reel will produce results. ( Longer smoother casts.) The oil comes in three grades. Red for the normal fishing, Yellow will get you a bit speed and Tournament will blow your mind. The oil is extremely thin yet will hold to the bearing. Many of the current long cast records have been won using Rocket Fuel

**RFG**= Rocket Fuel Grease **RFR**= RED **RFY**= Yellow **RFT**= Tournament

Breakaway rods changed the way people fish; we are going to do it again with our new light weight long casting rod series. Breakaway long casting formula, light weight and affordable will make these rods a must for the angler wanting to increase casting distance. "This rod will increase the effective fishing distance of the shore angler."

***"Rods constructed from 30 ton Graphite"***

LDXC154/2 MF Casting 13ft 3 to 6 oz 25line Section equal lengths.  
LDXS154/2 MF Spinning 13ft 3 to 6 oz 25line Section equal lengths  
HDXC156/2 Casting 13ft 4 to 8oz 30lb line Sections equal lengths  
HDXS156/2 Spinning 13ft 4 to 8oz 30lb line Sections equal lengths

Breakaway rods will put the bait or lure where you want it. Extreme Casting ability with the back bone to land the big boys. Our rods have been proved and tested on the water and the casting field by the most powerful casters in the USA today. This range of rods makes distance and dependability affordable.

**NEW!! Breakaway 7'6" ALPHA  
Bay/Trout Rod  
Rated for 8-12lb, 1/8-3/4oz**

**Breakaway Tackle brings you the newest innovation in light tackle gear. The Alpha is the newest in line of superior Breakaway Rods designed for Trout, Red, and various light tackle saltwater fishing. The Alpha is available in both casting and spinning versions at a modest price.**
